

Dear Sirs

I write as lead member for Health at Peterborough City Council to express my support for the PCT's recent consultation on urgent and primary care for the City of Peterborough. I believe the consultation was carried out thoroughly and professionally and that any conflicts, whether perceived or real, were managed effectively.

I do recognise that a number of parties would be disappointed with the outcome of any consultation; however in this case it is clear that the PCT have acted in good faith at all times.

Yours faithfully

**Councillor Wayne Fitzgerald**  
**Cabinet Member for Adult Social Care**  
**Peterborough City Council**
